From the President:

9-01-09

I would like to recognize all of the people who have spent many days of clean up on our trails this past summer. I can't tell you enough how much you are appreciated, I know how hard it is to take your personal time to take part in these activities.

Things have changed greatly; we have little timber sales these days, and they were a big contributor in clearing the trails for their equipment. Your BLM and Forrest Services are also under great scrutiny of funding and lack of funds for trail clearing. Thus it's becoming more and more of an issue and if we don't keep on top of them, we will fall behind and will never be able to catch back-up. Even with Brushing Grants, which are not easily acquired, they can't cover all the State and all the trails.

So Hats off to theses members for stepping up and lending a hand!!
